ENGINEERING SERVICES**

ABOUT

SUNRISE ENGINEERING SOLUTIONS PVT LTD

Sunrise Engineering Solutions Pvt Ltd (SESPL) ISO 9001-2015 certified company established in year 2002. Our journey started with 3 engineers, now we are 80+. We emphasis on delivering each project with high accuracy and effectiveness. We have skilled engineers, designers & modelers etc. We have 20000 man-hours monthly capacity.

We expertise in Design & Detailing Engineering Services (Structure/Mechanical/Piping) for refineries, power plants, pharmaceuticals, fertilizer plants & infrastructure projects like bridges & girders. We also provide services to material handling projects, mining, marine & ship projects.

Well versed with Indian, British, European & American Design Codes & engineering standards. We are EIL approved vendor. We are having an international working exposure. We have good experience in Middle East, Singapore & USA. We are preferred vendor to all Indian leading, mid-small size EPC & PMC companies.

- To emerge as most preferable design & detailing company for Indian as well as multinational clients.
- Time to time incorporate latest technology and improvement in services according to client's requirements. Continual improvement and growth of the company.
- Creating a vibrant culture, focus toward motivate team and improve internal employer branding.

- Our Team is our strength. Team of designers, modelers, detailers, draughtsman and engineers analyze the client requirements and prepare the working methodologies accordingly.
- With advanced technology, high-quality equipment, methodical management and experienced engineering team, we can easily handle large-scale projects with great satisfaction and efficiency.
- Team of Sunrise Engineering Solutions Private Limited is capable of delivering the high-end projects within the committed turnaround time.

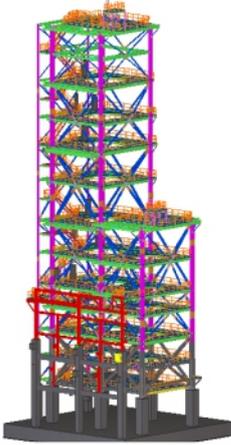

- Provide accurate Design & Detailing Services which shall consistently fulfils the client's requirements.
- Match excellent standards through latest business practices and optimum utilization of resources.
- Improve the organization performance by rational and active participation of our employees, customers, suppliers and all those who are associated with us.

1

- Innovative, cost and time effective services by implementation of advance information, technology and skilled manpower.

DESIGN AND DETAILING ENGINEERING SERVICES

INDUSTRIAL STRUCTURE DESIGN DETAILING

Plant Structures

- Process plant, Power plant, Oil & Gas plant, Steel plant (Pipe Rack, Technological Structure, Shades)

Commercial & Residential

- Warehouse, Pre-Engineering Building (PEB), Parking

Bridge & ROB

- Steel bridge, Railway Over Bridge (ROB)

Super Critical Structures

- HRSG, Heater Structure, Furnace Structure and Furnace Duct

PIPING DESIGN DETAILING

Our engineers have expert in Piping Design & Detailing engineering services that includes process plants, piping routing, piping modelling, piping conceptual layout, piping GAD, piping isometric and piping support. Our engineers have experience in providing these services using various supporting software such as PDS, PDMS, MicroStation, AutoCAD, SmartPlant 3D and AutoPlant 3D.

PROCESS EQUIPMENT DESIGN DETAILING

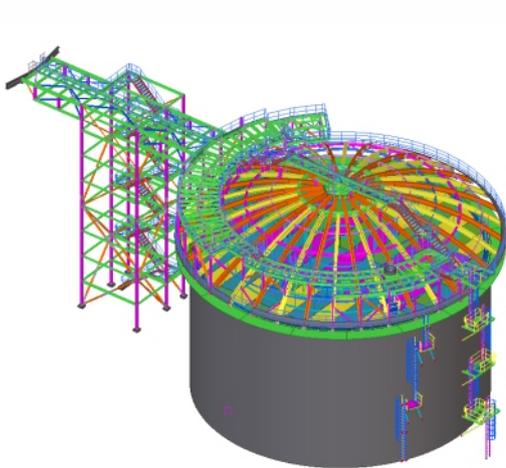

We have worked extensively on process equipment design & detailing for oil & gas refinery, petrochemical, utility, pharmaceutical etc. Our team is very well familiar with the international codes and standards such as ASME, TEMA and API. We have also delivered design and detailing service for heat exchangers, columns, reactors, tanks,

condensers, evaporators etc. Our team has also given engineering solution with fabrication drawings. It includes general arrangement, nozzle details, internal and external detailing, circular platform detailing, shell development and many others.

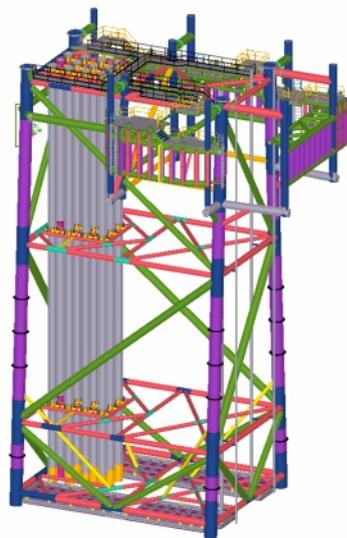

DEPUTATION SERVICES

Sunrise Engineering Solutions Pvt. Ltd. offer professional deputation services to the Indian & overseas companies as per their engineering manpower requirements. We believe in sincere & ethical practices to provide effective manpower solution in the field of engineering design & detailing. We have ample of experience & skills to identify the potential candidates based on the specific requirements of the clients.

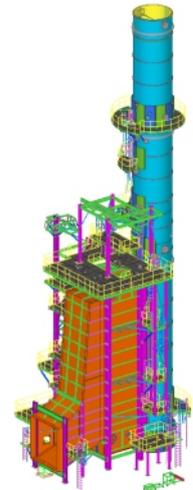

OUR PORTFOLIO

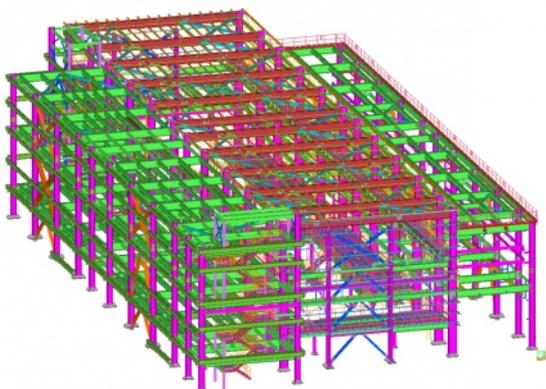

Ammonia Storage Tank - HURL

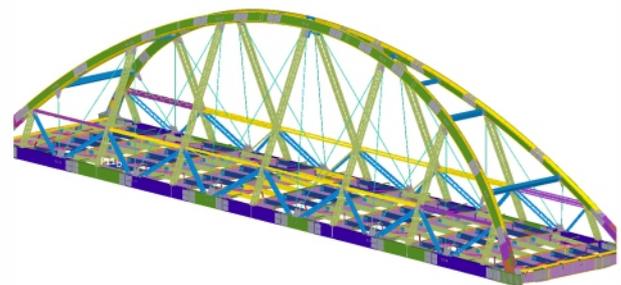

Hasbah Gas Field Expansion

HRSG - YKP

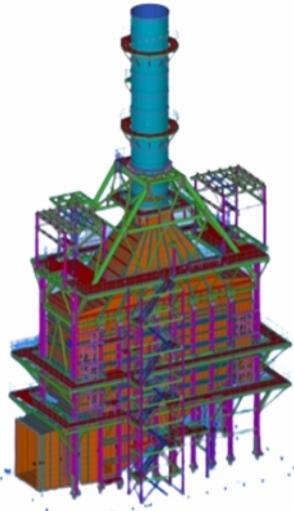

2x35 MW Peat Fired Power Plant

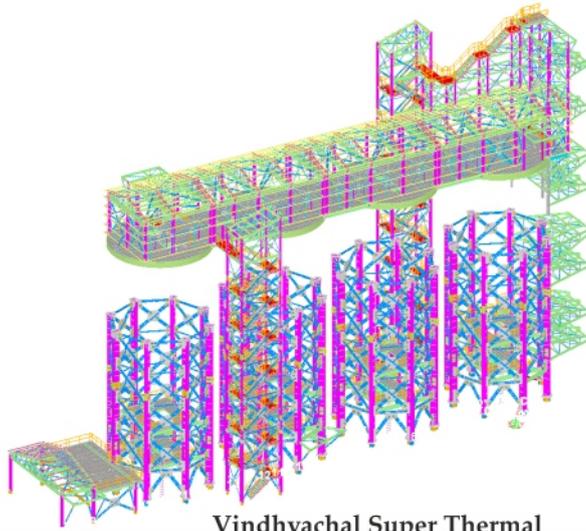

Kalwa Bridge

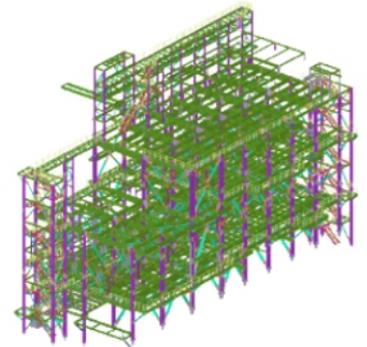

OUR PORTFOLIO

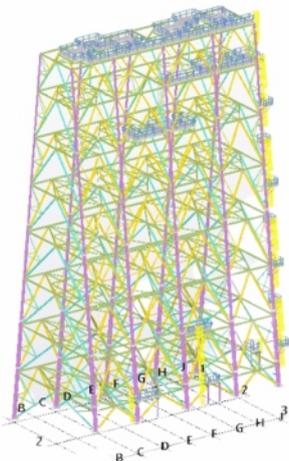

Heat Recovery Steam Generator -
Sikalaha 225 MW Power Project

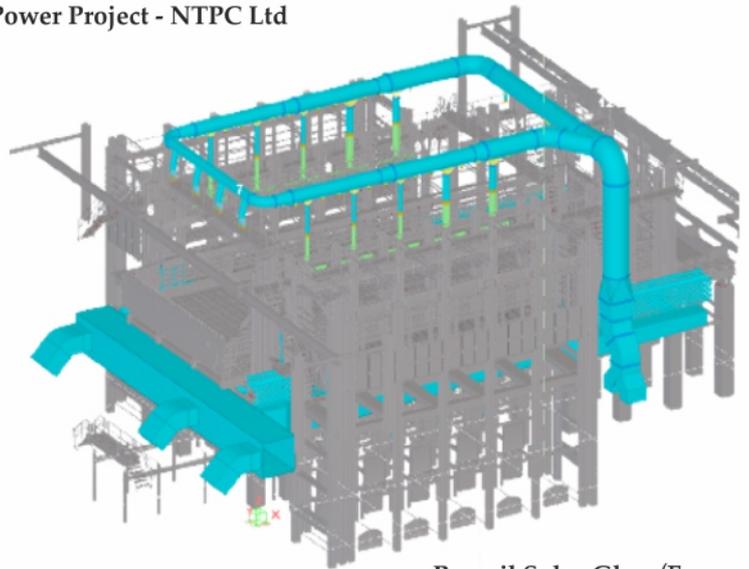

Vindhyachal Super Thermal
Power Project - NTPC Ltd

BR-9 Expansion Project IOCL

Flare System- Vizag Refinery

Borosil Solar Glass (Furnace)
